

STEM CELLBANKER® DMSO Free GMP Grade

Manufactured by:

ZENOGEN PHARMA CO., LTD.

List of Cells Tested

****Cell types are constantly being added. Please contact use if you cannot find your cell on this list.**

Cell Type	Description
129SV	Mouse embryonic stem cell
2D-8	Murine hybridoma
NBM-Lu	Normal newborn murine fibroblast cell line
P3/x63-Ag8.U1	Murine myeloma cell
YAC-1	Murine lymphoblast
201B7	Human iPS cell
Caco-2	Human colonic adenocarcinoma cell
HeLa	Human uterine cervical carcinoma cell
HepG2	Human hepatocellular carcinoma cell
Jurkat	Human T-cell line
K562	Human Caucasian chronic myelogenous leukemia cell
SK007	Human B-cell line
UE6E7-16	Human Mesenchymal cell
UE7T-13	Human Mesenchymal Stem cell
	Human Adipose-Derived Stromal/Stem Cells (ADSC)
Canine PBMC	Canine peripheral blood mononuclear cells
Feline PBMC	Feline peripheral blood mononuclear cells
Tissue	Tumor tissue
