

BMPro[®]-H

Serum free media for monoclonal antibody production

- Serum free medium for hybridoma
- Yield higher monoclonal antibody than traditional medium
- Low protein contents. Animal origin component free

BMPro[®]-H

BMPro-H is a serum-free complete medium meticulously designed for hybridoma cultures. This advanced formulation surpasses traditional serum-supplemented media.

- Yielding higher monoclonal antibody production.
- Free of serum-derived IgG. Low protein content.
- Validated for exceptional antibody production using mouse x mouse hybridoma systems.
